

Plan Olid: OBJECTIVES AND ENVIRONMENTAL GOALS

The Olid Plan is the strategic environmental plan that aims to reduce and minimize the consumption of energy, water, waste and CO₂ emissions by 3.7% by the year 2020.

Thanks to the environmental management and the actions that this Plan entails, Playaolid Suites & Apartments implemented a Program of Good Environmental Practices that support the awareness of our customers, suppliers and staff.

Our main commitment is to efficiently manage all our resources through:

- Programs for the reduction, reuse and minimization of solid and hazardous waste.*
- Continuous training programs on environmental sustainability in order to understand the positive impact of good environmental practices in the daily operation of the establishment.*
- Our Energy Saving Policy, Water Saving Policy, Waste Management Policy and chemical products.*
- Awareness of our guests with different actions or activities throughout the year, with active participation on their part.*
- Active participation in environmental and social projects that take place in our community in the form of cooperation and donations.*

OBJECTIVES AND ENVIRONMENTAL GOALS

- *Active participation in environmental and social projects that take place in our community in the form of cooperation and donations.*
- *Promotion of local products.*
